INTRODUCTION

Chemelyne, was born in 2005 with a passion of sales and mission of providing best in class, innovative and affordable products to the entire industry. We are a company dedicated to the import and commercialization of raw materials that allow our customers to develop products that impact the senses of the final consumer. We look for raw materials easy-to-use, good performance through suppliers with international certifications that guarantee high quality products, we rely on a professional group that provides specialized technical support Since inception the group has grown manifold both in terms of volume & range of products. We have pioneered the use of many differentiated and innovative products to satisfy the present customer needs. With our commitment to Quality and Service, we have become one of the most reputed company in the North India serving to more than 300 satisfied customers across India. Apart from supplying different products, we also provide technical guidance to improve the quality of the final products of our customers.

Our Entire Team is Focused on giving Fulfillment, Service and Transparency to each of our relationships.

MISSION

Achieving a company with values and principles that have allowed it, to be recognized in the market for its responsibility, transparency and good service, since its inception Chemelyne has the firm objective of marketing raw materials that provide added value to the market, with different technical support that allow us to offer the customer a commercial and technical area generating in the client tranquility in the appropriate and responsible use of our raw materials. Our clients trust in our products.

OUR STRENGTHS

We are a responsible company with our suppliers and customers, we work exclusively, we carry out follow-up and report to each sample or information that we receive, presenting a report to our supplier if it suits them.
